VFR Local Navigation

Visual Flight Rules

Insieme di regole che governano il volo per mezzo di riferimenti visivi secondo il principio ICAO

"TO SEE AND TO BE SEEN"

Il pilota mantiene separazione visiva con il terreno, o quando non possibile, è in grado di distinguere l'orizzonte.

Il pilota mantiene separazione visiva con altri traffici.

Per volare secondo questi principi è necessario che sussistano determinate condizioni meteorologiche.

Queste condizioni sono definite come
VMC
(Visual Metereological Condition)

NAVIGAZIONE VFR LOCALE

- Non necessita della compilazione di un piano di volo
- Non richiede la creazione di un flight log
- E' necessario avere a bordo la carta di aerodromo e la carta d'area
- Le procedure di ATC clearance, startup e decollo sono le medesime del circuito di traffico
